

Speech Generation Simplified

Express
Yourself in
Seconds!

User Friendly

- Designed with the end user and Speech Pathologist in mind, the EyeOn product line is uncomplicated and easy to use.
- Easily customize communication boards – what used to take hours now takes minutes.

EyeOn Elite

14" Speech Device

More than just another speech device, the EyeOn Elite comes with the OnBright app suite to help users stay connected to life. Includes eye gaze, environmental controls, and hands-free calling and texting.

EyeOn Air

12" Speech Device

Our lightweight option that's compatible with multiple access methods, like eye gaze or switch, the EyeOn Air is the perfect compact option that still offers all the functionality you need.

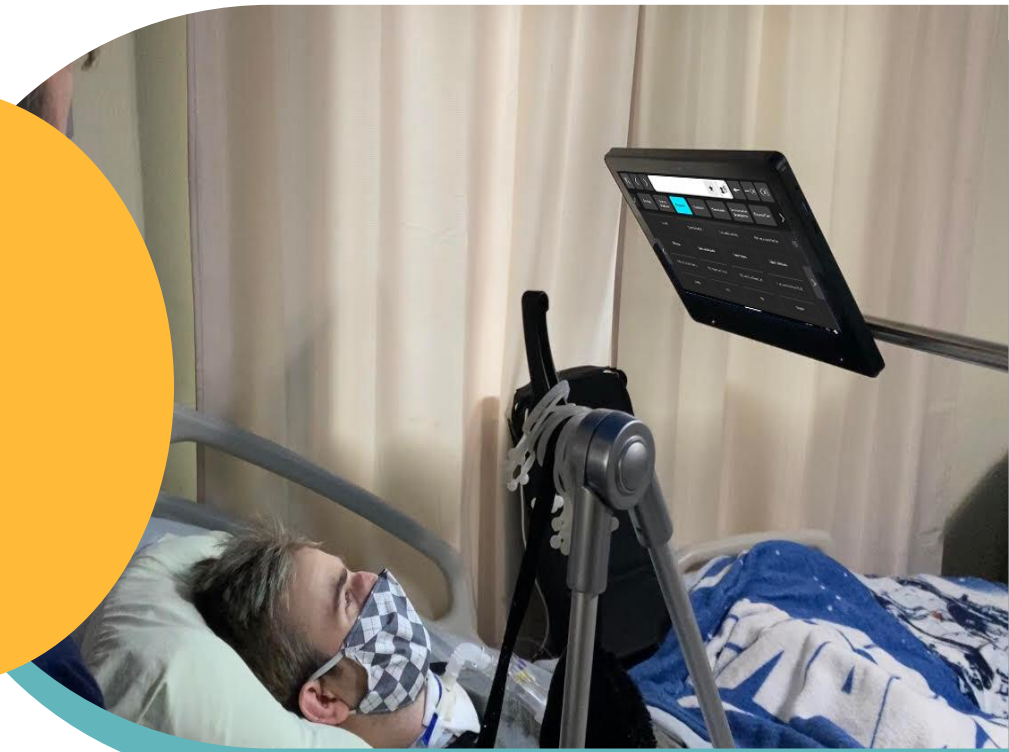

EyeOn Go

10" Speech Device

With up to 38 hours of battery life, the EyeOn Go offers the most mobility for touch or switch access users. Includes access to all of your favorite apps on the Google Play store.

More Than Devices

Need Help?

- Every EyeOn product comes with lifetime, unlimited support for end users, their caregivers, and Speech Pathologists.
- Our experienced funding team will work with Medicare, Medicaid, private insurance and alternative funding programs to fund your speech generating device.

Success Coach Team

Available to help personalize communication boards, provide eye gaze coaching, or solve any technical needs, our Success Coach team provides 1:1 sessions for the lifetime of the device.

Clinical Education Team

Transitioning from traditional communication methods to high-tech? Our Clinical Education Specialists can provide tailored training to your facility on speech generating devices and eye gaze.

Funding Team

Our in-house funding team can help navigate the complexities of reimbursement. With funding options throughout the country, we can process claims on your behalf.
